

Salamone's PASTAbilities

By becoming little chefs, children can learn creativity and independence through cooking, while having fun with pasta. They expand their abilities, using

Ivan Green Kindergarten, E. Irondequoit Schools

imagination and fine motor skills while becoming more comfortable with sensory and tactile awareness. They make a meal they'll enjoy and open the door to explore cooking – making it part of their lifestyle.

PASTAbilities' goal is to provide a great, healthy meal using fresh pasta (home-made daily) while your children and you are having fun in a creative, kid-friendly activity.

Our recipe: par-cooked pasta sheets, small cookie cutters and your children's imaginations! Next, choose a theme: dinosaurs, cars, flowers, butterflies, letters, numbers – the list goes on and on.

After creating their pasta, they top it off with one of our two delicious, homemade sauces to enjoy their own masterpieces!

A fun, new party concept

Our fresh-made par-cooked pasta is available in:

- ~ Regular Pasta
- ~ Whole Wheat Pasta
- ~ Gluten FREE/Casein FREE Pasta.

We have six "amazing," "yummy," sauces to choose from:

- ~ Traditional Red Sauce
- ~ Cheesy-Cheese Sauce
- ~ Marinara
- ~ Butter-Herb Sauce
- ~ Fresh Basil, roasted red pepper, and tomato sauce
- ~ Alfredo Sauce (at additional charge, as it costs more to make.)

Hats and aprons are provided for each child participating. The birthday child receives a

cooking related gift bag. Party favor bags available at a cost per child. Italian music & mustaches complete the scene – we're ready to cook. They'll be

ready to create future meals — **the PASTAbilities are endless!**
